Malcomb Pace  
East 2804-30th. 142  
Spokane, WA 99223

Dear Malcomb,

Per our telecon, find enclosed photographs of the M-114 armored personnel carrier. I have also enclosed a photo of a Saracen for your consideration.

The M-114 armored personnel carrier circa 1964 as used by the U.S Army in southeast Asia and in Europe is shown with a .50 cal. machine gun mount and shield. The gun is not shown. Also included with the vehicle is an M-60 machine gun mount and shield for the gunners hatch. I have replica guns available. Spares include track segments, road wheels, short shaft, and miscellaneous parts. The vehicle is in excellent condition and is fully operational.

The M-114 is currently scheduled to be used in a made-for-TV movie being shot in New York city between June 15th and July 7th. It would be available after July 8th. You could inspect the vehicle in Mt. Holly, New Jersey up until June 13th.

The wheeled vehicle is a British Saracen armored personnel carrier. It carries eight troops plus driver and commander. The turret mounts a Browning .30 cal machine gun and it has an external .50 cal mount. Since the Saracen is a wheeled vehicle, it was titled and registered in New Jersey and is street legal.

The selling price for each vehicles is \$35,000 . FOB New Jersey.

Sincerely,

Francis S. Key
